## THE DUNES GOLF LINKS, VIC

Length 6409 meters

Par 72

Architect: Tony Cashmore

Set amidst more than 150 hectares of rolling coastal sand hills in “The Cups” region of the Mornington Peninsula, The Dunes 18 hole championship course has been designed to exploit the natural beauty of the terrain, while providing a true test of skill and judgment for golfers of every level.

The Abundant charm of the par 72 layout is dramatically enhanced by the technical merit of the course. At 6409 meters in length, the sloping fairways meander through undulating knolls and ridges, leading to expansive greens that are typically sheltered in a natural amphitheatre or exposed on elevated promontories to the full force of the elements.

The firmness of the greens is something to behold, with 30’ and 40’ putts definitely makeable if you can read the line. Another glorious feature of the course, the trademark bunkering and prevalence of native grasses ensure every aspect of your game is relentlessly challenged, with the tough

tormenting any player who ventures wide of the fairway.

The constantly changing contours ensure that each hole is an individual as they are demanding, while the unpredictable weather of Bass Strait further accentuates the rich and varied character of The Dunes Golf Links.
